## Installation of the delta3 | app in the Apple App Store and Google Play Store

The delta3 | app is available free of charge in the Apple and Google App Store.

### Download via QR Code

The delta3 | app is a mobile app (application) and can be downloaded and automatically installed via a store by default. The download is free of charge and the app contains a free demo version that can be tested. In order to be able to use the full scope of the app, a registration via a delta3 account is required.

The store may differ depending on the device. **Apple devices** use the Apple App Store. The delta3 | app can be downloaded via this link: <https://apps.apple.com/ng/app/delta3-app/id1627714147>

on stationary and mobile devices or use following active QR code.

Der folgende Link kann genutzt werden:

delta3 | app - Apps on Apple

On **Android devices**, the d3 | app can be downloaded from the Google Play Store on this link:  
<https://play.google.com/store/apps/details?id=io.delta3.delta3app>

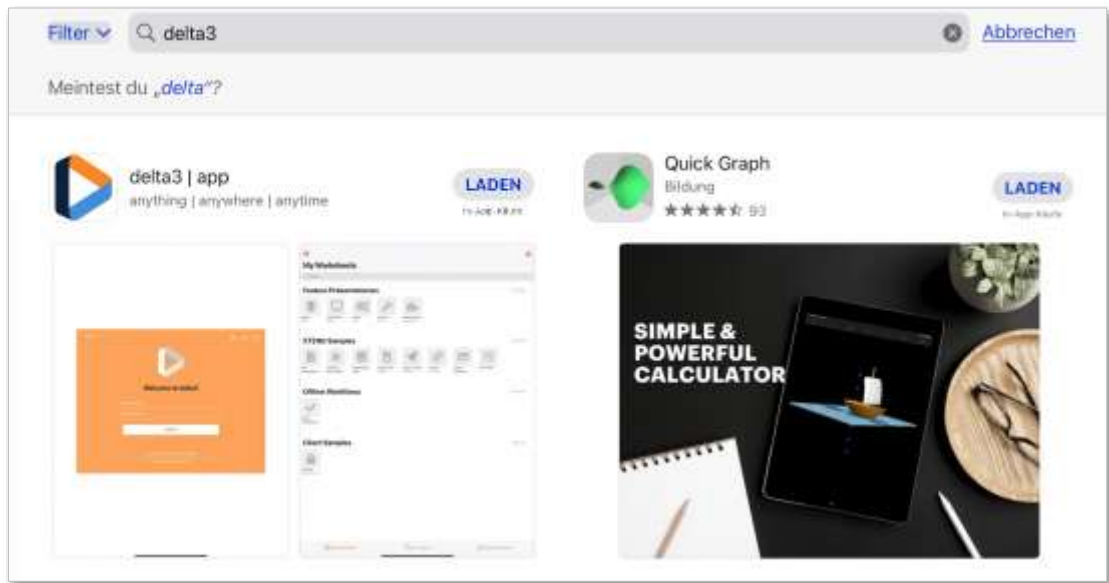

Or use the following active QR code.

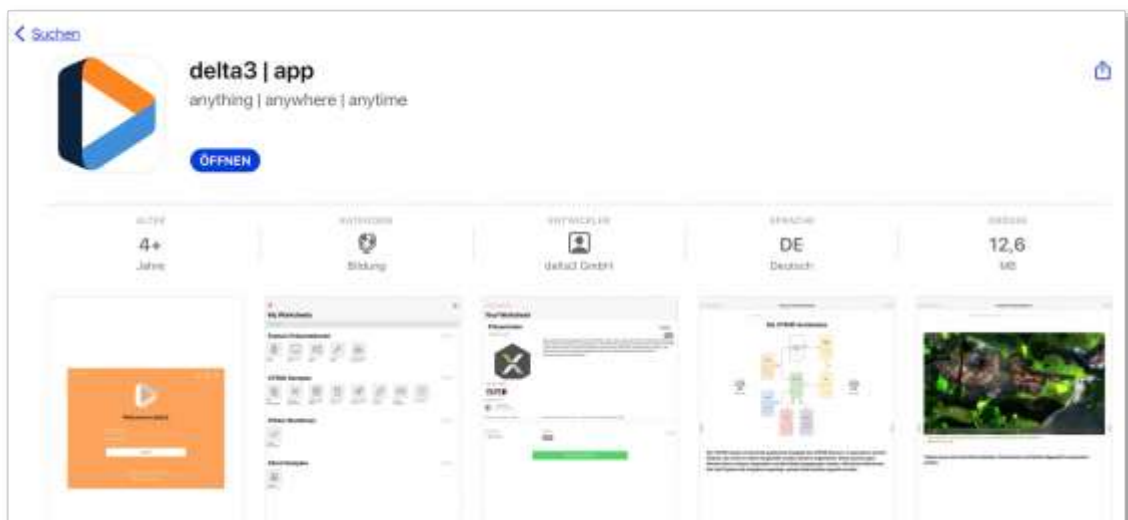

Even though the d3 | app can be downloaded and works on all types of devices, we recommend mobile but still large devices, such as tablets. These offer the advantage that they are not tied to a workstation and still offer a large interaction surface.

## Download via search from the Apple App Store

- Launch of the Apple AppStore App
- Enter "delta3 app" in the search window

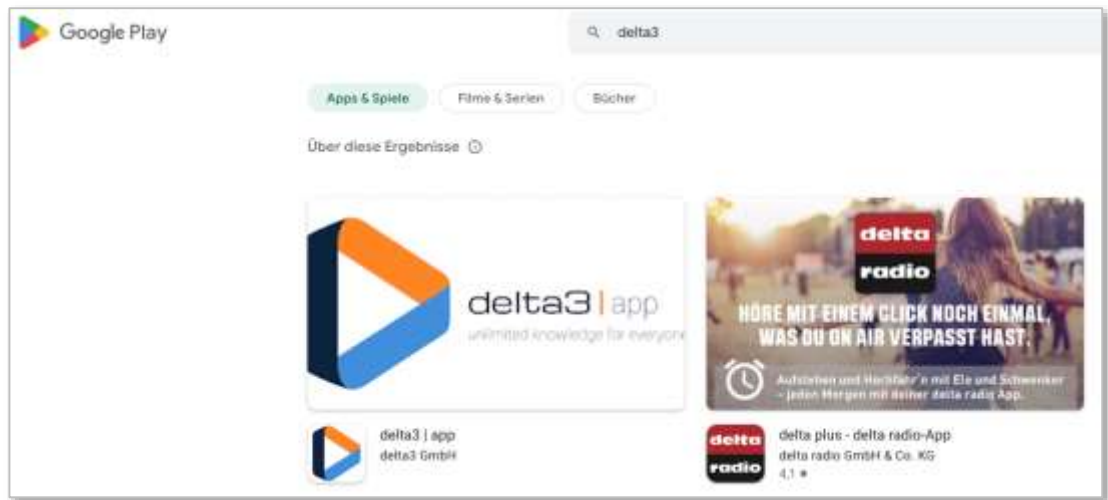

- Installing the app via "Load"
- If the app is already installed, the App Store will display "Open".

## Download by search from the Google Play Store

- Launch of the Google Play Store App
- Enter "delta3 app" in the search field

- Installing the app via "Install"
- If the app is already installed, the App Store will display "Open".
