

## **Task: Write A Use Cases – Library**

### **Preparation**

Gather in groups of 3-5 students.

### **Task I**

Take a look at the application domain „library of a university“. Compile a list of all stakeholders.

### **Aufgabe II**

Write a list of user goals for each stakeholder from task I.

### **Aufgabe III**

Choose three user goals and write a use case for each of these goals. Explain why you choose the goals you chose.

Be able to present the use cases to the course.
